Projects

This-Chord — *Ruby on Rails, React/Redux, PostgreSQL*   Live   GitHub

- Real-time chat functionality utilizing Pusher's API and bidirectional TCP connection
- Separation of public channels and private direct messages by utilizing model level associations and a true/false column in the schema to differentiate between the two types of communication
- Self implemented authorization leveraging BCrypt and Base 64 to generate password digests and session tokens respectively

Elon's Crazy Day — *JavaScript, HTML5 Canvas, Webpack*   Live   GitHub

- An endless runner inspired by Atari's famous 1983 Pole Position
- Utilizes two layers of canvas for the background and cars, inline with the Single Responsibility Principle

kQuery — *JavaScript*   Live   GitHub

- A lightweight library with similar functionality to jQuery
- Demo showcases kQuery's methods such as adding class names and appending nodes

SKILLS

JavaScript	Ruby on Rails	React.js	Redux.js
HTML5	CSS3	SQL	jQuery

EXPERIENCE

Weitz & Luxenberg, P.C., New York, NY — *Paralegal*

August 2015 - July 2017
